To Whom It May Concern,

My name is Deb Berg and I have been in business for 4 years part time and 7 years full time. I am owner of The Healing Stop on Coliseum Blvd and began my full time business over 11 years ago doing Cardiovascular Screenings and health coaching in a Truck Stop full time for the previous 5 years. We have been very successful in growth and business. Behind the scenes bookkeeping and management is not my strong skill set and even though as my business grew I managed. But there came a point I needed help. I am very particular about doing things right and Bev Bradley was recommended to me at the beginning of 2013 to help in this area.

I really believe it was one of the best decisions I could have made moving forward. I have to admit I didn't want to add the additional expense but the peace of mind that it has brought is worth the decision I made. The cost has not been significant at all for what she has brought to my business and my peace of mind. She is very articulate in her work and so absolutely thorough. I struggle with the accounting part of my business and she picks up so much slack and fixes so many of my mistakes. I cannot say enough good about her. I would highly recommend her services. Feel free to call me if you have questions.

To whom it may concern,

8/10/15

I met Beverly Bradley at an Ameritrade luncheon two and a half years ago and have been very pleased with the work that she has done for my business. She started out working on straightening out my bookkeeping, and understanding my business, and helping me to be more accurate at reporting my accounting. Last year, she took on my payroll and tax preparation and she did a great job!!

There are many things that I like about Bev and the way she does business. Below I have listed some of the ways that she has done for my business and the good qualities that I admire about her:

- Bev has always been patient with me and willing to help me to find better ways preparing my accounting information saving me money and making her job easier.
- Bev is a person of integrity and if she doesn't know the tax law or accounting principles that apply to you specific business, she is willing to do the research to do it correct and lawful. She is not willing to cut corners to please her customer.
- Bev is motivated to help my business succeed. She has always given me good advice, and pushed me to be better organized so that I can get my paperwork to her in a timely manner.
- Bev cares about me and my business. She is not just my bookkeeper and tax preparer, but she is also a good friend. She cares about me and my business and not just doing business and making money.
- Her prices are reasonable.
- Bev is willing to go to bat for my business if necessary. This year, she went with me to a meeting with the IRS to work out a payment plan for my back taxes.
- Bev is really good at explaining accounting principles and tax laws in a simple way that even I can understand.
- Bev makes time for me as I'm able to meet with her. She is understanding of the demands of being a small business owner and is willing to meet when it works best for me.
- Bev keeps me accountable and on time with paying my taxes, and getting my accounting and payroll information to her on time.

There are so many good things that I could say about Bev. These are just a few that I thought of. If you would like to know more I would be glad to talk with you. My cell phone number is: 260.416-9460.

Respectfully,

Michael T Peters, DBA Integrity Electric
