

This is a testimonial on the qualifications of Bev Bradley. On June 17, 2011, Beverly Bradley joined Ameritrade Business Exchange to provide accounting services to our membership. The feedback I have received and my personal observations are as follows:

1. Bev is highly skilled as a Quickbooks expert. If she doesn't understand how to solve a problem or answer a question, she contacts Quickbooks Technical Support directly to accomplish the goal.
2. Bev is very organized.
3. Bev will only follow standard accounting practices, as to adhere to IRS regulations.
4. Bev's integrity brings the business owner peace of mind that the accounting is being done correctly.
5. Bev understands the importance of having and providing timely financial statements.
6. Bev is an excellent communicator.
7. Bev understands that business accounting is a process of accomplishing goals.
8. Bev also has skills in doing payroll and business taxes.

I would highly recommend Beverly in serving any business with their accounting needs and projects.

To Your Success!
